Prof. Dr. Seifedine Kadry <ijeecs@iaescore.com>   5 September 2022 pukul 14.45
Kepada: Dian Sa'adillah Maylawati <diansm@uinsgd.ac.id>

The following message is being delivered on behalf of Indonesian Journal of Electrical Engineering and Computer Science.

_____
-- IJEECS for writing format and style: https://iaescore.com/gfa/ijeecs.docx
-- Research paper: min 25 references primarily to journal papers
-- Review paper: min 50 references primarily to journal papers
-- Similarity score of your manuscript must be less than 25%

Dear Prof/Dr/Mr/Mrs: Dian Sa'adillah Maylawati,

Thank you for submitting the manuscript, "Combination of Feature-based Approach and Sequential Pattern Mining to Enhance Quality of Indonesian Automatic Text Summarization" to Indonesian Journal of Electrical Engineering and Computer Science. With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL:
https://ijeecs.iaescore.com/index.php/IJEECS/author/submission/30114 <- It is your paper ID!!
Username: diansm

Please take a look at:
http://ijeecs.iaescore.com/index.php/IJEECS/about/editorialPolicies#custom-4.
Before review process, please re-upload your revised paper as "author version" as soon as possible by considering the checklist for avoiding delay on review process.

Thank you for considering this journal as a venue for your work.

Best Regards,
Prof. Dr. Seifedine Kadry
Indonesian Journal of Electrical Engineering and Computer Science

NOTE:
-- A single author is NOT preferred in this journal, except come from qualified researcher (min WoS/Scopus h-index: 15). We would like to publish high quality papers of a research group.
-- Paper with single author normally will be REJECTED

For ORIGINAL/RESEARCH PAPER, the paper should be presented with IMRaD model:
1. Introduction (I)
2. The Proposed Method/Algorithm/Procedure specifically designed (optional).
Authors may present complex proofs of theorems or non-obvious proofs of correctness of algorithms after introduction section (obvious theorems & straightforward proofs of existing theorems are NOT needed).

3. Method (M)
4. Results and Discussion (RaD)
5. Conclusion.
A high quality research paper MUST has:
(1) a clear statement of the problem the paper is addressing;
(2) the proposed solution(s); and
(3) results achieved. It describes clearly what has been done before on the problem, and what is new.
The goal of this revision is to describe NOVEL TECHNICAL RESULTS. There are four (4) types of technical results:
(a) A theory: consisting of a collection of theorems.
(b) An algorithm/method/approach/framework/ .... ;
(c) A system construct: such as hardware design, software system, protocol, etc.; The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed.
(d) A performance evaluation: obtained through analyses, simulation or measurements;
Please state your technical result (one of the four types of technical results above) in your paper.
We will usually expect a minimum of 25 references primarily to journal papers, depending on the length of the paper (number of minimum references = 2n+10, n=page length). Citations of textbooks should be used very rarely and citations to web pages should be avoided. All cited papers should be referenced within the text of the manuscript.

For REVIEW PAPERS, the paper should present a critical and constructive analysis of existing published literature in a field, through summary, classification, analysis and comparison. The function and goal of the review paper is:
1) to organize literature;
2) to evaluate literature;
3) to identify patterns and trends in the literature;
4) to synthesize literature; or
5) to identify research gaps and recommend new research areas.
The structure of a review paper includes:
1. Title – in this case does not indicate that it is a review article.
2. Abstract – includes a description of subjects covered.
3. Introduction includes a description of context (paragraph 1-3), motivation for review (paragraph 4, sentence 1) and defines the focus (paragraph 4, sentences 2-3)
4. Body – structured by headings and subheadings
5. Conclusion – states the implications of the findings and an identifies possible new research fields
6. References ("Literature Review") – organised by number in the order they were cited in the text.
Number of minimum references for review paper is 50 references (included minimum 40 recently journal articles).

------------- Kindly forward this email to other interested parties!!

The following message is being delivered on behalf of Indonesian Journal of
Electrical Engineering and Computer Science.

_____
-- Paper ID# 30114
-- Authors must strictly adhere to the guide for authors, MS Word:
http://iaescore.com/gfa/ijeecs.docx; LaTeX format:
http://iaescore.com/gfa/ijeecs.rar
-- Research Paper: min 25 references (primarily to journal papers) and
Review/study/survey Paper: min 50 references (primarily to journal papers)

Dear Prof/Dr/Mr/Mrs. Dian Sa'adillah Maylawati,

We have reached a decision regarding your paper submission entitled
"Combination of Feature-based Approach and Sequential Pattern Mining to
Enhance Quality of Indonesian Automatic Text Summarization" to Indonesian
Journal of Electrical Engineering and Computer Science, a Scopus indexed
journal (SJR 2017: 0.182, Q3 on Electrical and Electronic Engineering, Q3 on
Computer Networks and Communications, Q3 on Hardware and Architecture, Q3 on
Signal Processing).

Our decision is: Revisions Required.
For research paper, it is mandatory to present your final paper according to
"IMRaDC style" format, i.e.:
    1. INTRODUCTION (I)
    2. The Proposed Method/Algorithm/Procedure specifically designed
(optional)
    3. METHOD (M)
    4. RESULTS AND DISCUSSION (RaD)
    5. CONCLUSION (C)
Authors should have made substantial contributions. Read the checklist for
preparing your paper for publication at:
http://ijeecs.iaescore.com/index.php/IJEECS/about/editorialPolicies#custom-5.
Please try to follow the format as closely as possible. Please submit your
revised paper in MS Word file format (or LATEX source files; ZIP your files
if you present your paper in LaTeX), refer materials at:
https://bit.ly/35R6JTs and https://bit.ly/2DxU9MI for further guidelines,
and submit revised paper within 8 weeks through our online system at same ID
number (NOT as new submission) on Tab "Review" as "Author Version" file.

Then, your revised paper will be judged for final decision of acceptance or
rejection.

I look forward for hearing from you

Thank you

Best Regards,
S. Kadry
Editor, IJEECS
ijeecs.iaes@gmail.com

---------------------------- -----   EDITOR COMMENTS   ------
----

YOU MUST DO IT!!!
Please prepare your revised paper by doing your best to avoid any delay for
publication!!!

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS
http://iaescore.com/gfa/ijeecs.docx (Use this file as your paper template!!)

2). Add biographies of authors as our template (include links to the 4
authors' profiles, do not delete any icons in the template). Provide links
for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID). It is
mandatory!!

3). Because tables and figures supplement the text, all tables and figures
should be referenced in the text. Avoid placing figures and tables before
their first mention in the text. Authors also must explain what the reader
should look for when using the table or figure. Focus only on the important
point the reader should draw from them. Use different PATTERNS (instead of
ONLY different colors) for presenting different results in your
figures/graphics. Prepare all your tables strictly adhere the guidelines (do
NOT as figure).

4). Please ensure that all references have been cited in your text. Use a
tool such as EndNote, Mendeley, or Zotero for reference management and
formatting, and choose IEEE style. Each citation should be written in the
order of appearance in the text in square brackets. For example, the first
citation [1], the second citation [2], and the third and fourth citations
[3], [4]. When citing multiple sources at once, the preferred method is to
list each number separately, in its own brackets, using a comma or dash
between numbers, as such: [1], [3], [5]. It is not necessary to mention an
author's name, pages used, or date of publication in the in-text citation.
Instead, refer to the source with a number in a square bracket, e.g. [9],
that will then correspond to the full citation in your reference list.
Examples of in-text citations:
    This theory was first put forward in 1970 [9].
    Zadeh [10] has argued that ...
    Several recent studies [7], [9], [11]-[15] have suggested that....
    ... end of the line for my research [16].

5). Please present all references as complete as possible and use IEEE style
(include information of DOIs, volume, number, pages, etc). If it is
available, DOI information is mandatory!! See
http://iaescore.com/gfa/ijeecs.docx

The following template should be used for responses to reviewers:

I would like to thank the reviewers for their insightful feedback. All comments from Reviewer 1 are highlighted in yellow, those from Reviewer 2 are highlighted in red, and those from Reviewer 3 are highlighted in green.

Reviewer 1

Comment 1 (example): There are some references that are not required.
Response (example): We thoroughly updated our references; 5 references were eliminated, and two were replaced by more recent publications.

Comment 2 (example): The presentation of Figures 2 and 3 should be improved.
Response (example): The necessary adjustments have been made.

Comment 3 (example): Equation (2) seems to be incorrect.
Response (example): Equation (2) is correct. This can be proven as follows:...
In order to clarify equation 9 in the manuscript, the following remarks have been added... etc.

All changes for reviewer 1 are highlighted in yellow in the main text.

Reviewer 2

Comment 1:
Response:

Comment 2:
Response:

Comment 3:
Response:

All changes for reviewer 2 are highlighted in red in the main text.

Etc.

Such a document clarifies everything and will aid the reviewers in evaluating the work fast.
When providing your amended primary document files, you must also upload your corrections statement. Before your manuscript, the declaration of revisions should appear.

Reviewer M:

Does the title of the paper accurately reflect the major focus contribution of this paper?:
    Yes

Please suggest change of the title as appropriate within 10 words::

Is the abstract an appropriate and adequate digest of the work?:
    No

If No, please suggest change of the abstract as appropriate?:
    Please elaborate Abstract - at least min 100 words and max 200 words. start

with an introduction, then highlight the issue, followed by objective, then
methodology used, finally findings.

Is the paper clear, concise, and well organized?:
    Yes

If No, please suggest change of the paper presentation as appropriate?
:

Rate of the contribution strength to the field is represented in this
paper?:
    Average

Rate the scientific quality of the paper?:
    Average

As far as your knowledge, have the authors already published a very similar
paper?:
    Yes

If yes, kindly please cite below:
:

Do authors place the paper in proper context by citing relevant papers?:
    Yes

Is the paper free from obvious errors, miscomceptions, or ambiguity?:
    Yes

Is the paper written in correct English?:
    Yes

If No, please note grammatical errors and suggest corrections:
:

Are the references in IJEECS style?*:
    Yes

Are the figures and tables in IJEECS style, clear, relevant, and are the
captions adequate?:
    Yes

Is the length of the paper adequate?:
    Yes

Please mark approite scale for the overall grade for this paper? (A score of
7 or above typically provides ground for IJEECS acceptance):
    6

Reviewer's comments and suggestions to improve the paper. (If it is not
possible, kindly please use separate sheets or a copy of the paper for
comments and suggestions for revision. Indicate whether revisions are
mandatory or suggested. Please use word processig type format if possible,
and then upload or submit via email to telkomnika.iaes@gmail.com):
    The present paper is well written and technically correct and its

contributions are indisputable. However, some edits would rather make it more acceptable. Please revise the paper as per the following comments.

1. The idea of the work is very good, modern and distinctive, but the manuscript in general needs more organization and highlighting the results and the explanations

2. Please elaborate Abstract - at least min 100 words and max 200 words. start with an introduction, then highlight the issue, followed by objective, then methodology used, finally findings.

3. The figure and table must be explained in the sentence before the figure is displayed. All figures should be referenced in the text

4. Please consider removing the out-of-date references and replacing the newest references (in SCOPUS, the papers published within 5 years are used to calculate CiteScore).

5. Please provide the links of the researchers social media accounts of the authors as complete as possible: Scopus, ORCID, Google Scholar, Publons

6. The template of paper needs a double check to follow all preparation rules and requirements rigidly.

a-- Paper ID# 30114
-- Please adhere to every detail of the guide of authors http://iaescore.com/gfa/ijeecs.docx.
-- The minimum number of references is 25 references (for original research)
-- and 50 references (for review/survey paper), primarily to recent journal articles.
-- Please attach your similarity report checking that the result is below 25% using software such as iThenticate or

Turnitin.

==

Dear Prof/Dr/Mr/Mrs: Dian Sa'adillah Maylawati,

It is my great pleasure to inform you that your paper entitled "Combination of Feature-based Approach and Sequential Pattern Mining to Enhance Quality of Indonesian Automatic Text Summarization" has been initially ACCEPTED and will be PUBLISHED on the Indonesian Journal of Electrical Engineering and Computer Science, a Scopus (https://www.scopus.com/sourceid/21100799500) and ScimagoJR (https://www.scimagojr.com/journalsearch.php?q=21100799500&tip=sid&clean=0) indexed journal. Congratulations!

Please submit your below documents within 30 days to ijeecs.iaes@gmail.com
1. Final camera ready paper (in MS Word file format, or LaTeX source files)
2. Similarity report checking (that the result is below 25%, uses software such as iThenticate or Turnitin), and
3. Payment evidence

Your paper will be published after fulfilling all requirements for publication (strictly follow the guidelines at http://ijeecs.iaescore.com/index.php/IJEECS/about/editorialPolicies#custom-5). The presentation of the simulation and/or experimental setup (in the Method section) must be clear and complete in every detail facilitating reproducibility by other scientists. Present a picture of your simulation and/or experimental setup and describe your work clearly. For your information, according to international regulations, the similarity score of camera-ready paper should be less than 25%. A single author is NOT acceptable, and will never publish in this journal. The editor(s) will decide whether or not your camera-ready paper is complete and meets the final guidelines. Please present each reference as completely as possible while adhering to IEEE style (including volume, number, pages, and DOIs). Failing to make a proper revision may lead to the delay of your paper for publication, even may lead to the rejection of your paper.

When you send in all of the above documents and your final paper follows all of the final instructions, your paper will be judged "fully accepted." It will be the date of your paper's acceptance.

We are looking forward to hearing from you

Best Regards,
S. Kadry

In order to cover part of the publication cost, each accepted paper is charged USD 315. This charge is for the first 8 pages, and any published manuscript over 8 pages will incur extra charges of USD 50 per page. Indonesian authors should transfer IDR instead of USD. (Please refer to https://www.xe.com for the exchange rate.) We value collaborative papers and do not value papers with a single (sole) author. Papers with a single author will be rejected (or, if very good, will be considered for publication but will be charged twice the above fee: USD 530, and any published manuscript with more than 8 pages will incur additional charges of USD 100 per page).

The payment should be made by bank transfer (T/T):

Dear Prof./Dr./Mr./Mrs. **Dian Sa'adillah Maylawati**

I am Jessy writing on behalf of the layout and editing team, under the auspices of the Indonesian Journal of Electrical Engineering and Computer Science team. We are glad to inform you that your paper is in the layout stage for possible publication in the forthcoming issue of this journal. Your cooperation for final checking and/or updating your paper is required. Please find the attached file (including comments and/or marked parts) to take further actions. **Kindly submit your updated paper within 1 day until 25 February, 2023. Please revise the file that is attached in this email. Send the revised version by reply to all this email.**

Please note that this email is only assigned for layout and editing purposes. For other communication purposes, reach us through the principal contact of the journal.

Your cooperation is highly appreciated.

Best regards,

Jessy R.

Title and Abstract

Title	Feature-based Approach and Sequential Pattern Mining to Enhance Quality of Indonesian Automatic Text Summarization

| Abstract | Indonesian automatic text summarization research is developed rapidly. The quality, especially readability aspect, of text summary can be reached if the meaning of the text can be maintained properly. Therefore, this research aims to enhance the quality of extractive Indonesian automatic text summarization with considering the quality of structured representation of text. This research uses Sequential Pattern Mining (SPM) to produce This research use Sequential Pattern Mining (SPM) to produce Sequence of Words (SoW) as structured text representation using PrefixSpan algorithm. Then, SPM is combined with feature-based approach using Sentence Scoring method to produce summary. The experiment result using IndoSum dataset shows that even though the combination of SPM and Sentence Scoring can increase the precision value of ROUGE-1, ROUGE-2, and ROUGE-L, from 0.68 to 0.76, 0.54 to 0.69, and 0.51 to 0.72. Especially, combination of SPM and Sentence Scoring can enhance precision, recall, and f-measure of ROUGE-L that consider the order of word occurance in measurement. SPM increases ROUGE-L f-measure value of Sentence Scoring from 0.32 to 0.36. Moreover, combination of Sentence Scoring and SPM is better than SumBasic that used as feature-based approach in the previous Indonesian text summarization research. |

Response to IJEECS Reviewer's Comment

Comments	Responses
Editor's comment: 1. PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS http://iaescore.com/gfa/ijeecs.docx (Use this file as your paper template!!) 2. Add biographies of authors as our template (include links to the 4 authors' profiles, do not delete any icons in the template). Provide links for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID). It is mandatory!! 3. Because tables and figures supplement the text, all tables and figures should be referenced in the text. Avoid placing figures and tables before their first mention in the text. Authors also must explain what the reader should look for when using the table or figure. Focus only on the important point the reader should draw from them. Use different PATTERNS (instead of ONLY different colors) for presenting different results in your figures/graphics. Prepare all your tables strictly adhere the guidelines (do NOT as figure). 4. Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages used, or date of	Thank you for your comment, we rechecked and revised our manuscript as following: 1. We followed author guideline and used paper templated which is provided. 2. Provided profile icons at authors biographies. 3. All tables and figures already mentioned in the text. Figures also used a pattern and follow the guideline. 4. Citation style is IEEE and we used Mendeley. 5. We rechecked and completed the reference information such as DOIs, volume, number, pages, etc.

Comments	Responses

publication in the in-text citation.
Instead, refer to the source with a number in a square bracket, e.g. [9],
that will then correspond to the full citation in your reference list.
Examples of in-text citations:
   This theory was first put forward in 1970 [9].
   Zadeh [10] has argued that ...
   Several recent studies [7], [9], [11]-[15] have suggested that....
   ... end of the line for my research [16].
5. Please present all references as complete as possible and use IEEE style
(include information of DOIs, volume, number, pages, etc). If it is
available, DOI information is mandatory!! See
http://iaescore.com/gfa/ijeecs.docx	

Reviewer M:
 	
Does the title of the paper accurately reflect the major focus contribution
of this paper?:
   Yes
 	
Please suggest change of the title as appropriate within 10 words::
 	
Is the abstract an appropriate and adequate digest of the work?:
   No
 	
If No, please suggest change of the abstract as appropriate?:
   Please elaborate Abstract - at least min 100 words and max 200 words. start
with an introduction, then highlight the issue, followed by objective, then
methodology used, finally findings.
 	
Is the paper clear, concise, and well organized?:
   Yes
 	
If No, please suggest change of the paper presentation as appropriate?
	I would like to thank the reviewers for their insightful feedback. All comments from Reviewer M are highlighted in yellow color.
	1. The idea of the work is very good, modern and distinctive, but the manuscript in general needs more organization and highlighting the results and the explanations
	Response: thank you for your comment, the explanation research findings and contribution are explained in the result and discussion section.
	
	2. Please elaborate Abstract - at least min 100 words and max 200 words.
	start with an introduction, then highlight the issue, followed by objective, then methodology used, finally findings.
	Response: we revised the abstract from 236 words to 192 words and contain an objective, method, and findings.
	
	3. The figure and table must be explained in the sentence before the figure is displayed. All figures should be referenced in the text
	Response: All figures and tables have been mentioned in the text.

Comments	Responses
:	4. Please consider removing the out-of-date references and replacing the newest references (in SCOPUS, the papers published within 5 years are used to calculate CiteScore). **Response:** thank you for your suggestion, several references below 5 years that cited in this research are removed, such as: J. Hirschberg and C. D. Manning, "Advances in natural language processing," *Science (1979)*, vol. 349, no. 6245, pp. 261–266, Jul. 2015, doi: 10.1126/science.aaa8685. But, others have not been removed, because those main references also. Thank you.
Rate of the contribution strength to the field is represented in this paper?: Average	
Rate the scientific quality of the paper?: Average	
As far as your knowledge, have the authors already published a very similar paper?: Yes	
If yes, kindly please cite below: :	5. Please provide the links of the researchers social media accounts of the authors as complete as possible: Scopus, ORCID, Google Scholar, Publons **Response:** we added the researchers publication profile account in the author biography.
Do authors place the paper in proper context by citing relevant papers?: Yes	
Is the paper free from obvious errors, miscomceptions, or ambiguity?: Yes	6. The template of paper needs a double check to follow all preparation rules and requirements rigidly. **Response:** thank you for your reminder, we rechecked and used the paper template.
Is the paper written in correct English?: Yes	
If No, please note grammatical errors and suggest corrections: :	
Are the references in IJEECS style?*: Yes	
Are the figures and tables in IJEECS style, clear, relevant, and are the captions adequate?: Yes	
Is the length of the paper adequate?:	

Comments	Responses
